

Some decent checkboxes and letterboxes

Checkboxes with default behaviour, checked and unchecked.

Checkboxes with custom size, checked and unchecked.

Checkboxes with user-provided bitmap files. The 'graphicOn' and 'graphicOff' attributes must refer to existing image files (we may extend this to vector ones in future). One hopes professional users have better icon-design skills than me :-)

Checkboxes with varying amount of label text.

Various Letterboxes.

The next two test whether style inheritance works for formStyles

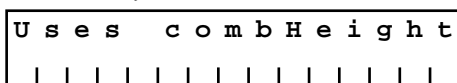

I should be green

I should be red with transparent background

This has fancy combs on

Label in big purple italic font

veryLongletterB

Various Textboxes.

some label

a textBox

now a squeezed textBox

some label
a textBox

some label

a textBox

now a squeezed textBox

some label
a textBox

Multi-line Textboxes. Note that, so far, squeezing is only done horizontally.

some label

some multi-line
textBox

now some multi-multi-line
textBox

some even longer
multi-multi-line
textBox

some multi-line textBox with special characters:
&, >, <

vAlign Top

vAlign Middle

vAlign Bottom

borderSpec="under"

borderSpec="over"

borderSpec="left"

borderSpec="right"

Prince Harry!
